### Why the Bible:

1. Because it is relevant to today.
2. Because it's true. Over and over again through the years, predictions made in its early writing have come true to the letter and are still coming true today.
3. Because it provides the effective information and guidance we need to live in our distorted world.
4. Because it's the only authentic source of information we have about our origin, our purpose for being here, and our future destination. How gracious of God to give us this information!
5. Because it gives us the true picture of the human heart and the remedy for sin. The Bible is very much alive. It tells us about real people, real places, real events.
6. Because in its pages we find the way to be born into God's family and to have eternal life.
7. Because in it we find how to live as God's children and the benefits we have from knowing Him personally.

Make the Bible the Foundation of Your Life. READ IT EVERY DAY!
